Today you participated in a motivational engagement event where you learned about how you can use your skills, talents & abilities to help others. You received a motivational magnet as a reminder to stay positive and that you make a positive difference everyday. You also received an Emergency Positivity Card. The scratch off card has a secret positive message that can be revealed when you feel like you need that little extra positivity in your own life. Ways to help others was discussed and an activity was played were everyone wrote down something positive on a sticky note then was shared with the group.

At the end, anyone could take a sticky note with them to be able to remember what was discussed. This activity allowed everyone to give something positive and leave with something positive. A focus of the event was on how everyone has different hobbies & skills and ways to use individual interests to help others. There are hundreds of organizations needing your type of skills & abilities. Volunteers are always welcome to assist at The Positive Difference Organization's free community events.

Mission Statement:

To inspire today's youth to make a positive difference in the world around them.

Nonprofit Activities:

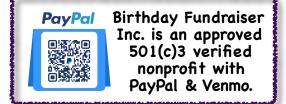

Provide motivational speaking to youth organizations on ways they can use their skills, talents & abilities to help others. Teach the importance of how one person doing a small act of kindness could make a huge impact on others. Two free community events are produced every year as examples of putting positivity out into the world.

The Positive Difference Organization started in 2021 as a birthday fundraiser to set an example as a way to use our birthdays to make a positive difference. The huge support and outcome of the first event inspired Nikki McFarling to turn her passion into an official 501(c)3 nonprofit and it is now registered in the state of Florida as Birthday Fundraiser Inc while having a DBA Positive Difference Organization.
